

AKTRION AUTOMOTIVE

Metrology

- CMM Specialist Technicians All Hardware/ Software
- Providing advanced, high quality measurement services.
- 3D laser scanners that enable fast capture and accurate measurement of objects
- Reverse Engineering

Calibration

- Electronic Devices
- Pressure and flow devices
- Temperature devices from -60°C to 1.100°C
- Temperature ($-30/140^{\circ}\text{C}$) and air humidity (10/95% Hr) in ambient
- Mass devices
- Equipment validation
